

# GENETIC COUNSELLING: WHY IT'S NECESSARY?

GENETIC COUNSELING WITH THE GENETICIST FOR IVF + PGS/PGO TO GET THE CORRECT NUMBER OF EMBRYOS REQUIRED FOR THE TESTING AND TO ENSURE OPTIMAL HEALTHY EMBRYOS AVAILABLE FOR TRANSFER

THE COUPLE TRYING TO PLAN A FAMILY BUT EITHER IS CARRIER OF GENETIC DISORDER

IVF INITIATED AT CRAFT

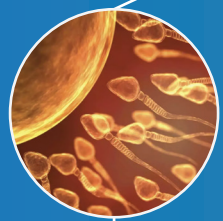

EMBRYOS FORMED. A FEW CELLS ARE TAKEN FOR PGS, PGTM

HEALTH GENERATIONS THEREAFTER AND IVF SUCCESS RATE INCREASES BY 25-30%

HEALTHY DISEASE FREE EMBRYOS WITHOUT ANY GENETIC DISORDER ARE TRANSFERRED

NATURAL CONCEPTION

BABY BORN WITH GENETIC DISEASE AS PARENTS PASSED FAULTY GENES

DISEASES LIKE DOWN SYNDROME, SICKLE CELL ANEMIA, THALESSEMIA, HAEMOPHILIA A, SMA, METABOLIC DISORDERS OF NEWBORNS, ETC.

## WHEN TO INITIATE PRECONCEPTIONAL CARE

- Any visit to a doctor in the reproductive years
- Annual health check up
- Postpartum check up
- A visit for a pregnancy test (especially if test negative)
- Emergency visit
- Premarital Counselling
